Data Analyst with 5+ years of experience building automated analytics solutions that improve business decisions through data modeling, automation, and machine learning. Skilled in SQL, Python, and Power BI. Currently pursuing a Master of Applied Data Science at UNC-Chapel Hill with a focus on machine learning and artificial intelligence.

WORK EXPERIENCE

Newell Brands | Data Analyst

Charlotte, NC | May 2023 – Present

- Designed a Power BI semantic model with automated reporting used daily by 100+ users. Trusted as the single source of truth by senior leadership to track over \$1B in sales.
- Developed a product recommendation model using Python and SQL to analyze customer purchasing patterns and identify high value sales opportunities, uncovering millions in potential revenue.
- Engineered a data pipeline that ingested web scraped pricing data into SQL and used Python logic to identify customer pricing violations. Recognized as a best in company solution.
- Contributed to the development and launch of generative AI agents for Brand, Product, Sales, and Pricing teams, reducing lead times and improving response accuracy.
- Saved an estimated \$100K+ annually by replacing an outsourced reporting process with a SQL and Python automation that applied custom matching logic and delivered reporting used by Finance.
- Built custom Power Apps mobile applications to support sales audits and generate new lead opportunities.

Lids | BI & Automation Analyst

Indianapolis, IN | June 2022 – May 2023

- Saved 10+ hours per week by developing an automated Azure to SQL data pipeline that transferred daily data into a legacy SQL database.
- Optimized an automated allocation model that distributed 500,000+ units weekly across 1,000 stores based on forecasted demand, sales, and trends.

Lids | Merchandising Analytics Intern

Indianapolis, IN | June 2021– August 2021

- Won an intern case competition by developing the private label brand Explore by Lids, which was later rolled out nationwide and generated over \$500K in sales.

EDUCATION

Master of Applied Data Science | University of North Carolina at Chapel Hill

Chapel Hill, NC | January 2025 – May 2027 (expected)

- Coursework: Deep Learning, Math for Data Science, AI Frameworks in Production, Machine Learning

Bachelor of Science in Analytics and Information Systems | Purdue University

West Lafayette, IN | August 2018 – May 2022

- Clubs & Activities: Purdue Club Baseball (Vice President), Data Mine Learning Community, Sports Analytics

SKILLS

Programming: Python (Pandas, NumPy, scikit-learn, TensorFlow), SQL, R, DAX

Analytics: Data modeling, Machine learning, Data pipelines, ETL, Statistical modeling, Data visualization

Tools: Power BI, Power Apps, Microsoft Copilot Studio, Azure, MicroStrategy
