WORK EXPERIENCE

Newell Brands (Rubbermaid Commercial)

May 2023 - Current

Data Analyst

Charlotte, NC

- Built a SQL-based price tracking system by ingesting third-party scraped data, enabling seamless tracking and recognized as a best-in-company solution.
- Created a Python script for grouping customer names from vendor sales data using fuzzy matching, ensuring consistent and accurate reporting.
- Collaborated on AI agent initiatives leveraging Microsoft Copilot Studio, developing intelligent agents to support the sales team with product and data insights.
- Transformed a manually updated report into an automated Power BI data model, delivering daily sales vs. budget KPIs with advanced analytics and automated distribution to leadership.
- Built a market basket model to identify top product combinations and customers for cross-selling, generating millions in new revenue opportunities.

Lids

June 2022 – May 2023

Business Analyst - BI and Automation

Indianapolis, IN

- Developed Python ETL scripts to batch-upload data files to the internal data warehouse, saving 10+ hours per week and improving data accuracy.
- Improved a statistical allocation model, optimizing weekly distribution of 500,000+ units based on forecasted demand, historical sales, and projected trends.
- Provided ad hoc reporting for buying, allocation, and planning teams, delivering actionable insights to support faster decision making.

Lids

June 2021– August 2021

Merchandising Analytics Intern

Indianapolis, IN

- Won an intern case competition with the concept for Explore by Lids, a private label brand successfully rolled out to stores, generating over \$500K in sales.

EDUCATION

University of North Carolina

Expected May 2027

Master of Applied Data Science (In Progress)

Chapel Hill, NC

- Built and deployed machine learning models, with advanced coursework in linear algebra and statistics.

Purdue University

May 2022

BS Business Analytics and Information Systems

West Lafayette, IN

- Managed scheduling, roster decisions and practices as Purdue Club Baseball Vice President (2020-2022)
