SUMMARY

Data & BI Analyst with 5+ years of experience transforming complex data into actionable business insights through analytics, automation, and machine learning. Skilled in SQL, Python, and Power BI. Currently pursuing a Master of Applied Data Science at UNC-Chapel Hill with a focus on machine learning (ML) and artificial intelligence (AI).

WORK EXPERIENCE

Newell Brands | Data Analyst

Charlotte, NC | May 2023 – Present

- Designed a statistical model that identified sales gaps and cross-selling opportunities, uncovering millions in potential revenue.
- Ingested web-scraped data into a SQL database and developed logic in Python to identify pricing violations. Recognized as a best in company solution.
- Helped develop and launch multiple generative AI agents supporting Brand, Product, Sales, and Pricing teams, reducing lead times and improving accuracy.
- Saved an estimated \$100K+ annually by rebuilding a previously outsourced reporting process with an automated internal workflow.
- Built and designed a Power BI dashboard distributed to 100+ users daily. Trusted as the single point of truth for tracking over \$1B in sales, budget, and forecast data for senior leadership.
- Created mobile apps for the sales team to efficiently conduct audits and generate new leads.

Lids | BI & Automation Analyst

Indianapolis, IN | June 2022 – May 2023

- Saved 10+ hours per week by building an automated batch upload system to transfer daily data from Azure to a legacy SQL database.
- Streamlined the allocation process by optimizing an automated model that distributes 500,000 + units weekly across 1,000 stores based on forecasted demand, sales and trends.

Lids | Merchandising Analytics Intern

Indianapolis, IN | June 2021– August 2021

- Won an intern case competition by developing and launching the private label brand *Explore by Lids*, which was rolled out nationwide and generated over \$500k in sales.

EDUCATION

Master of Applied Data Science | University of North Carolina at Chapel Hill

Chapel Hill, NC | January 2025 – May 2027 (expected)

Bachelor of Science in Analytics and Information Systems | Purdue University

West Lafayette, IN | August 2018 – May 2022

SKILLS

Programming: Python (NumPy, TensorFlow, scikit-learn), SQL, R, DAX

Concepts: Machine learning, Data visualization, ETL, Data modeling, Statistical modeling

Tools: Power BI, Power Automate, MicroStrategy, Git, Microsoft Copilot Studio
